- provided copies of any medical, psychological or other reports that may be relevant to meeting your child's needs;

Waiting List Progression and Assessment

The School will review the waiting lists regularly. As part of the assessment process, the School may ask the parents to provide more information about the child. Any assessments or reports required from non-school personnel will be at the parents' expense.

Parents should be aware of the following:

Kindergarten entry: School readiness assessments and interviews occur in the year before entry; applications should be submitted in advance.

Applications are processed in the following order:

- Siblings, children of alumni and staff children;
- East End /West End Early Learning and Pre School enrolments;
- Date of application order.

Four-year-old children whose 5th birthday falls before 1 July of the proposed year of entry are eligible to commence Kindergarten.

All children must undertake a Readiness for School assessment. This is completed in 2nd or 3rd Term before the year of entry. It involves an interview with the Head of Primary or delegate and an assessment of the child by staff.

Early entry to Kindergarten for a 4 year-old child, whose 5th birthday falls after 1 July of the proposed year of entry, may be accepted, subject to:

- (d) a written application being addressed to the Head of School;
- (e) there being vacancies after all other children, who will have attained the age of five (5) years before 1 July having been offered places;
- (f) the Head of Primary's assessment of the child concerned confirming that he or she is ready for admission to Kindergarten.

If parents have already indicated specific learning needs, an alternative and/or additional assessment process will be required.

For those children who do not turn six (6) until after the end of the fourth term of the proposed year of entry, and who are assessed as being not yet ready for school, the Head of School may require an additional assessment process to be undertaken to determine whether or not the child has specific learning needs. The Head of School reserves the right to defer the enrolment to the following year, to decline the enrolment if the needs of the student cannot be met with special needs.

In respect of any prospective enrolment, the School reserves the right to have members of its staff visit the child's pre-school, early childhood centre or (with the parents' agreement) the home, to more accurately assess the learning needs of the child.

Year 7 entry

Application by date order interviews and offers of a place occur **two years** in advance of entry.

Applications are processed in the following order:

- Siblings, children of alumni and staff if they have applied before the cut-off date;
- Up to 10 places will be held for scholarship awardees;

- Date of application order.

In considering all prospective enrolments, the School may ask parents to authorise the Head of School or delegate to contact:

- (a) the Head of School of the child's previous school to obtain or confirm information pertaining to the child or the child's enrolment;
- (b) any medical or other personnel considered significant for providing information pertaining to the needs of the child; and
- (c) a financial check.

An enrolment may be declined (this includes sibling enrolment) where information obtained by the School suggests:

- (a) a profile of wilful misconduct, illegal activities or strong anti-social behaviours that indicate that the child's enrolment at the School is likely to be detrimental to other students, the staff or the School; or
- (b) the parents may not be able to meet the financial commitment required by having a child at the School.

Disability

The *Disability Standards for Education 2005* ('the Standards') are formulated under the *Disability Discrimination Act 1992 (Cth)*. The primary purpose of the Standards is to clarify and make more explicit the rights of students with disabilities and the obligations of providers in relation to:

- Enrolment;
- Participation;
- Curriculum development, accreditation and delivery;
- Student support services;
- Elimination of harassment and victimisation;
- Special provisions for students in assessments and examinations.

The key concept of the Standards is the principle of treating a student with a disability on the same basis as a student without a disability. Achieving this equality involves

education providers making adjustments for students with a disability. Only reasonable adjustments are required. An educational provider can be exempt from making an adjustment where it is proven that such an adjustment would cause unjustifiable hardship.

Where a child has declared education support needs or a disability or other information has come to light indicating a possible need for education support services or for some measures or actions to assist the child to participate in the School's courses or programmes or to use the School's facilities or services, the School will make an initial assessment of the child's needs. This will include consultation with the child or the child's parents. In addition, the Head of School may:

- (a) require the parents to provide medical, psychological or other reports from specialists outside the School;
- (b) obtain an independent assessment of the child.

Where information obtained by the School indicates that the child has a disability, the Head of School will seek to identify the exact nature of the child's needs and the strategies required to address them. Having obtained this information, the Head of School will determine whether the child, if enrolled, would require some measures or actions to assist the child to participate in the School's courses or programmes or to use the School's facilities or services that are not required by students who do not have the child's disability. Where the Head of School determines that the child would require some such measures or actions, the Head of School will seek to identify whether those measures or actions required are reasonable in that they balance the interests of all parties affected. In assessing whether a particular measure or action for a particular child is reasonable, the Head of School will have regard to all the relevant circumstances and interests, including:

- (a) the child's disability;
- (b) the views of the child or the child's parents about:
 - whether the particular measure or action is reasonable;
 - the extent to which the particular measure or action would ensure that the child was able to participate in the School's courses or programmes or to use the School's facilities or services on the same basis as a child without the disability;
- (c) the effect of the adjustment on the child, including the effect on the child's:
 - ability to achieve learning outcomes; and
 - ability to participate in courses or programmes; and
 - independence;

- (d) the effect of the particular measure or action on anyone else affected, including the School, its staff and other students;
- (e) the costs and benefits of taking the particular measure or action.

The School will take measures and actions that are reasonable but will not necessarily take measures or actions that are unreasonable or that would impose unjustifiable hardship on the School. In determining whether taking the required measures or actions, even though they are reasonable, would impose unjustifiable hardship on the School, the Head of School will take into account all relevant circumstances of the case, including:

- (a) the nature of the benefit or detriment likely to accrue or be suffered by any persons concerned (including other students, staff, the School, the child, the family of the child, and the School community); and
- (b) the effect of the disability of the child; and
- (c) the School's financial circumstances and the estimated amount of expenditure required to be made by the School; and
- (d) the availability of financial and other assistance to the School.

Where the Head of School determines that the enrolment of the child would require the School to take unreasonable measures or actions to ensure that the child is able to participate in the School's courses or programmes, or to use the School's facilities and services, on the same basis as a student without a disability, or would cause unjustifiable hardship, the Head of School may decline the offer of a position or defer the offer.

Interview

When a position becomes available, the School will invite the parents of a child on the waiting lists to attend an interview at the School with the Head of School or a member of staff delegated by the Head of School. At the interview, among other things, the School's representative will:

- (a) inform the parents of their responsibility to the School in relation to fees and communication with the school; and
- (b) will seek to establish that the expectations and commitments of the parents are consistent with the vision, values, goals, policies and resources of the School.

School Rights

The Head of School reserves the right not to offer any child a place at the School or to defer the offer of a place to any child in its discretion but particularly when the parents, having been aware of their child's specific educational needs, decline to declare those needs or to withhold relevant information pertaining to their child.

The School also reserves the right to terminate an enrolment where the parents have not declared or have withheld known information pertaining to their child's needs.

OFFER

At the satisfactory conclusion of the assessment process, the School may make an offer to the parents to enrol the child. To accept the offer, the parents must, within seven (7) days of receiving it, deliver to the School:

- (a) the Acceptance Form which includes acceptance by the parents of the current Conditions of Enrolment;
- (b) the non-refundable Entry Fee.

Failure to reply within the required time may result in the position being re-offered where other children are waiting for entry to the School.

STUDENTS LEAVING THE SCHOOL

When a student who is of compulsory school age (below seventeen (17) years of age) leaves the School, the School must ask the parents to advise the School of the student's new school. If this information regarding the destination of the student is not provided and therefore is unknown, the Head of Enrolments must inform the Head of School who, within seven (7) days of being notified, must inform the Department of Education (attendance@det.nsw.edu.au) Home School Liaison Officer (HSLO). Further, the School must retain on file evidence that the Department of Education has been notified of the student's full name, date of birth, last known address, last date of attendance, parents' names and contact details, an indication of possible destination, other information that may assist officers to locate the student, and any known work health and safety risks associated with contacting the parents or student.
