A Day @ UNSW is one of our most popular events and this year, we have added a date on Thursday, 25 June. Students will spend the day attending lectures, meeting new friends and experiencing all that uni life has to offer.

Spots are filling up fast. Call us on (02) 9385 1844 if you're keen on bringing a school group and we can reserve a place for your students.

Year 10 Subject Selection and Information Evenings!

This event is always extremely popular, with the first two evenings in May almost at capacity.

We want to make sure students are familiar with what they'll be doing during HSC subject selection, how their selections may affect bonus points, what the difference is between assumed knowledge and prerequisites and how the uni admission and scholarships application process works.

So if you have students in Year 10 who are looking at going to university in two years time, then make sure they don't miss out on this very informative event!

Confused about Assumed Knowledge?
Read our latest post on Assumed and Recommended Knowledge for our degree programs here.

BOSTES accredited PD opportunities available!
Spend the day at UNSW learning about Engineering and how you can relate real examples of innovation to the units in your curriculum.

Calling all future Engineers!
Senior HS Schools have the opportunity to sample several fields of engineering during this all day workshop at UNSW’s Kensington Campus.

Upcoming events.
